

ASQC Executive Committee Meeting

The Executive Committee of ASQC Section 705 met November 29, 1994. The following individuals attended the meeting:

Richard Powe
Bobby Gladd
Cheryl Prince
Bob Rinderman
Cindy Humphries
Fred Loftus
Fred Schwager

The budget was discussed and Cheryl Prince will complete proposed budget based on current input and fax to Richard Powe.

The two individuals running for Regional Director Election will be invited to our December meeting which will be prior to nomination the deadline.

Places for the Section meetings were discussed. The Holiday Inn Emerald Springs is the location for the December meeting. The Yucca Mountain Science Center will be scheduled after the first of the new year.

The ASQC on-line system is now running and Bobby Gladd is set up to access the database whenever the need arises. There will be no more hard copies of the membership lists sent so we will have to periodically download the list.

Richard announced the Regional Director's Meeting is scheduled for December 17 in Los Angeles. It appears no one will be able to attend due to time involved.

We have only received three responses to the inquiry for interest in a Certified Quality Technician exam preparation course. Due to this response a prep course will not be offered.

We have not yet received any nominations for Inspector of the Year Award; however, there are still some expected based on conversations that have taken place.

Committee Reports

Education Chair (Fred Loftus) - Certified Quality Auditor exam is to be offered. Members of the Section are considering preparing and offering a prep course for the CQA exam.

Membership/Hospitality (Cindy Humphries) - Bobby Gladd will begin printing membership list monthly and providing a copy to Cindy. Richard requested that information

packets be developed and sent to new members as they join or transfer.

Newsletter/Publicity (Bobby Gladd) - A meeting announcement postcard will be sent for the December meeting. The next newsletter is expected to be completed by late December.

National Quality Month (Fred Schwager) - We have been receiving feedback on the NQM program. An abbreviated 30 minute videotape of the program is now available.

Program Chair (Bob Rinderman) - An updated list of upcoming meeting speakers and locations was distributed. Bob requested authorization to extend an invitation to the American Nuclear Society for a joint association meeting in May. Consensus approval was given.

The meeting was then adjourned.
