

Coming this November: ISO 26000

The ISO 26000 standard on social responsibility (SR) will be released in November and will be available through ASQ. The standard will assist organizations in addressing social responsibility while respecting cultural, societal, environmental, and legal differences. ASQ has taken a lead in this effort, administering the U.S. Technical Advisory Group (TAG) on social responsibility, as well as developing concepts, tools, and techniques to help organizations achieve SR business results.
