

ASQ NEWS

Free Webinar Series Explores How Quality Tools Apply to Healthcare

ASQ is offering members a new, free webinar every month that explores how quality tools and methodologies can be applied to healthcare issues such as patient safety, error reduction, cost reduction, and efficiency. With the healthcare industry currently looking for quality professionals, this may be an opportunity for your members to learn how their quality skills can be used in the healthcare market. Taking Away the Pain - A Quality for Life™ Video Story

For those who suffer from ailments, pharmaceutical and over-the-counter drugs can be the difference between a life of comfort and a life of pain. Hear how ASQ member Meena Chettiar, quality manager at CIMA Labs, uses quality tools to brighten the lives of others. [View the video.](#)

Food Safety Experts Wanted for ASQ Advocacy Initiatives

As part of its advocacy work, ASQ is working with ANAB/ACLASS on food safety legislative initiatives. These initiatives aim to ensure that proposed food safety legislation contains provisions to acknowledge and encourage the role of accredited third-party conformity assessment in enhancing food safety.

If you have experience in the areas of food quality and international quality management systems standards and you are interested in getting involved in this work, contact Michelle Mason at ASQ headquarters (mmason@asq.org).
